## CUSTOMER SERVICE INSPECTION REPORT

PWS I.D. Number: 2120105

Location of Service: \_\_\_\_\_

### REASON FOR INSPECTION

- ☐ New construction
- ☐ Existing service where contamination hazards are suspected
- ☐ Major renovation or expansion of distribution facilities

I \_\_\_\_\_, upon inspection of the private water distribution facilities connected to the Emerald Bay Municipal Utility District public water supply do hereby certify that to the best of my knowledge:

Compliance      Non-Compliance

- |                          |                          |    |  |
|--------------------------|--------------------------|----|--|
| <input type="checkbox"/> | <input type="checkbox"/> | -1 | No direct connection between the public drinking water supply and a potential source of contamination exist. Potential sources of contamination are isolated from the public water system by an air gap or an appropriate backflow prevention assembly in accordance with Commission regulations.  |
| <input type="checkbox"/> | <input type="checkbox"/> | -2 | No cross-connection between the public drinking water supply and a private water system exists. Where an actual air gap is not maintained between the public water supply and a private water supply, an approved reduced pressure zone backflow prevention assembly is properly installed and a service agreement exists for annual inspection and testing by a certified backflow assembly tester. |
| <input type="checkbox"/> | <input type="checkbox"/> | -3 | No connection exists which would allow the return of water used for condensing, cooling, or industrial processes back to the public water supply.  |
| <input type="checkbox"/> | <input type="checkbox"/> | -4 | No pipe or pipe fitting which contains more than 8.0% lead exists in private water distribution facilities installed after July 1, 1988.   |
| <input type="checkbox"/> | <input type="checkbox"/> | -5 | No solder or flux that contains more than 0.2% lead exists in private water distribution facilities installed after July 1, 1988.  |

I further certify that the following materials were used in the installation of the private water distribution facilities:

**Service Lines:**      ☐ Lead      ☐ Copper      ☐ PVC      ☐ Other  
**Solder:**      ☐ Lead      ☐ Lead Free      ☐ Solvent Weld      ☐ Other

I recognize that this document will become a permanent record of the aforementioned public water system and that I am legally responsible for the information I have provided.
